RESUME OBJECTIVE

A Computer Science BTech graduate with expertise in programming languages, algorithms, and software development. Seeking opportunities & understanding emerging technologies & tools to apply theoretical knowledge to practical problem-solving in areas such as machine learning, artificial intelligence, and software engineering.

EXPERIENCE

08/2022 - 06/2026

Student

Sanjay Ghodawat Experience | Kolhapur, India

I have adopted some of the coding skills along with different Operating Systems. I'm looking forward to adopt more programming languages & development tools to develop websites! I am passionate to learn more exciting skills!

- Advanced class discussions by asking questions and suggesting answers to others' inquiries.
- Attended school in [Location] to enrich learning experienced in immersive environment.
- Followed along with lectures and made notes for later reference and study.
- Prepared for examinations by studying course material with fellow students.
- Helped complete and lead assigned group projects, consistently meeting objectives and deadlines.
- Played sports and trained consistently to improve skills and conditioning for challenging games.
